STP SERIES SURFACE MOUNT POP-UP OUTLET

Red Dot award winning STP-2 surface mount pop-up outlet is a contemporary and minimalist pop-up outlet with an ultra-slim profile and excellent aesthetic appeal, designed to provide power and connectivity solution for various appliances to keep a sleek kitchen design and a clutter-free workspace. They are particularly useful for kitchen countertops and under cabinets where wall space is at a premium or clean lines are preferred. You can also use them in several rooms within your homes and offices and maximize your space.

Our patented structure adopts a “Human-Centered Design” concept, with user’s perspective in mind, first and foremost while bringing forward innovative features and minimalist style that elevate the functionality and appearance of a pop-up outlet.

SURFACE MOUNT POP-UP OUTLET

Features

◀ Incorporates a cylindrical shape construction with sleek and durable anodized aluminum alloy enclosure and matte finish flame retardant PC panel, ensuring a longer product lifespan.

◀ 15W Qi-wireless charging top lets you charge smartphones and other compatible devices quickly and efficiently, to offer versatile functionality.

◀ The cover panel in fully retracted position, lies nearly flush with the worktop, making it blend in with the surrounding environment. Supports wireless charging in both elevated and retracted position.

◀ Built-in Bluetooth speaker can be paired with compatible devices to stream music, podcasts, or even audiobooks, to give users the consistent experience they demand in their entertainment and work.*

*Available upon request

SURFACE MOUNT POP-UP OUTLET

Features

- It can also be mounted under cabinet where clean kitchen countertop space is preferred, to provide convenience without being too obtrusive.

- Easily accessible to fast charge smartphones and tablets using the 30W USB-C (PD) & USB-A (QC 3.0) charger outlet, when elevated.*
*Available upon request

- Enjoy watching cooking recipes, reading notifications or even video calling on your tablet in the kitchen, without having to worry about running out of battery power.

- Minimalist design and ingenious vertical pop-up feature, effectively manages cables and wires to reduce clutter and maximizes your space to enjoy a more organized and productive workstation.

Features

Features an overload protection switch, to give user extra peace of mind whilst ensuring that the device gets the right amount of power.

Encompasses an ultra-slim collar ring with 1.2mm thickness for a streamlined integration while contributing to the aesthetic beauty of the worktop.

Simply press and pull up the unit in a smooth motion to effortlessly access the outlets.

Features

Equipped with dedicated inlets on the bottom cover to accommodate specific configuration such as ethernet jacks, HDMI interface as well as IEC power inlet.

Supplied with 1.8m pre-wired power cord.

Under-desk cable management to keep all the cables grouped together (not included).

SURFACE MOUNT POP-UP OUTLET

Features

- Allow users to plug multiple appliances conveniently at the same time without the need for stretching cables, unlike traditional sockets.

- Space-saving and safer alternative to traditional plug sockets and extension strips for your kitchen or any room with limited space or wall sockets.

- Water, dust, and oil-resistance preserves functionality and appearance, while ensuring user's safety.

SMT SERIES MOTORIZED POP UP UNIT

Today's modern workspaces demand advanced functionality and aesthetic appearance. Our SMT series motorized pop-up unit enables you to achieve these contemporary features, embodying a unique blend of practical functions and modern-inspired design.

Not only will your workspace become more productive and better connected with this incredible addition, but it will also feel ingenious and stylish thanks to the elegant weathered finish and sturdy character.

Suitable for installation within:

Kitchen

Meeting Rooms

Office

Study Room

Living Room

Bedroom

... ..

The flashing LED light enhances the socket top center when the unit is in motion creating a seamless blend to its simplistic & impressive design.

When not in use, the sleek top cover sits flush with the tabletop surface for a discreet and tidy appearance.

MOTORIZED POP UP UNIT

Features

◀ IP54 Weatherproof protection:

When in closed position, IP54 seal provides almost complete protection from particles and a good level of protection against water (available in WP version).

◀ 15W wireless charging:

Wireless-charging top allows you to power Qi-enabled devices by simply placing it directly on the pad.

◀ Anti-Force mechanism:

If the unit encounters an obstruction during a raise operation, the anti-force function will activate, and the unit will be paused in the current position.

◀ Anti-Trap safety mechanism:

If the unit is obstructed during lowering operation, the anti-trap safety function will reverse the direction of the travel path, and the unit will raise slightly and pause.

STS SERIES DESKTOP BOXES

We offer various types of desktop sockets providing safe and convenient access to connections such as Power, USB, Data and Multimedia. Instead of running several different cables across your floor, which is a messy trip hazard just waiting to happen, you can bring that connectivity directly to your desk, minimizing all that cable clutter.

Suitable for installation within:

Meeting Rooms

Office

Kitchen

Coffee Shop

Library

Bedroom

DESKTOP BOXES

Features

Small but powerful:

Avoid wire tangles and easily charge your devices right on your desktop with this compact flush mount power grommet. Integrated with a dual port USB A+C charger with a total power output of 21W (max) and a customizable power module, providing a convenient in-desk power and charging solution. Ideal for use for on desks, tables, and benches with rear access.

Intelligent charging:

USB ports adapt to the charging capabilities of your connected devices and provides the optimal charging current.

Easy to install:

Fits easily and can be mounted on Ø80mm circular grommet hole, making installation quick and simple.

Suitable for installation within:

Features

STS-R90-2
1xType 45 series power module +
1xDual port type A+C USB charger

STS-R90-2-US

STC SERIES USB TABLE CHARGERS

We offer a range of unique and contemporary USB table chargers with fast charging technology, that can make sure your devices stay fully charged and powered up in shortest possible time. Suitable for flexible workspace design.

USB TABLE CHARGER

Features

Power of Dual:

Featuring a USB-C PD port and a Qualcomm Quick Charge 3.0 port, to quickly charge up to 2 of your devices at a time (max up to 105W).

Compact design:

Features a compact & minimalist round design that includes a sleek construction, and LED power indicator which will light up in quick charging mode for each port.

Safety Protection:

Equipped with built-in safety measures that prevent overcharging and overheating for a little extra piece of mind.

Cable pass through grommet:

The integrated cable pass through grommet eliminates cable clutters and maximizes desk space contributing to a neat appearance.

Universal Compatibility:

With optimized charging technology, both the featured USB ports can connect with most of the compatible devices including smartphones, tablets and laptops.

Suitable for installation within:

Charging adapter options

Features

20W, 65W, 105W options available

STC-1W/C20, STC-1B/C20

- Single output:
C port(PD3.0): 5V/3A, 9V/2.22A, 12V/1.67A
A port(QC3.0/2.0): 5V/3A, 9V/2A, 12V/1.5A
- Both output: 5V/3.5A Max

STC-1W/C65, STC-1B/C65

- Output C port:
1. QC2.0/3.0/AFC: 5V/3A, 9V/3A, 12V/3A
2. PD/PPS/QC4(when C port single output):
5V/2.4A, 9V/3A, 12V/3A, 15V/4A, 20V/3.25A(65W)
PD/PPS/QC4(when C & A port both output):
5V/2.4A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A(45W)
- Output A port: 5V/2.4A Max

STC-1W/C105, STC-1B/C105

- Single output:
1. C1 port(QC3.0/FCP/AFC): 5V/3A, 9V/3A, 12V/3A
2. C1 port(PD3.0/PPS/QC4+):
5V/2.4A, 9V/3A, 12V/3A, 15V/5A, 20V/5A
3. C2 port(PD3.0): 5V/2.4A, 9V/2A
4. A port(QC3.0/FCP/AFC): 5V/3A, 9V/2A
- Both output:
1. C1 port(QC3.0/FCP/AFC): 5V/3A, 9V/3A, 12V/3A
2. C1 port(PD3.0/PPS/QC4+):
5V/2.4A, 9V/3A, 12V/3A, 15V/5A, 20V/4.35A
3. C2 & A port: 5V/3.5A Max

The office desk has its own opening, most of which are 50~60mm, saving the steps of opening.

USB TABLE CHARGER

STC-1 Series

Model	Color	Material	Input	Cutout(mm)

USB TABLE CHARGER

Features

Power of Dual:
Featuring a USB-C PD port and a Qualcomm Quick Charge 3.0 port, to quickly charge up to 2 of your devices at a time (max up to 105W).

Unique design:
This compact charger features a unique & minimalist trapezoid design that includes a sleek construction, and LED power indicator which will light up in quick charging mode for each port.

Protective Dust Cover:
Equipped with dust covers to protect unused USB ports from dust and moisture.

Universal Compatibility:
With optimized charging technology, both the featured USB ports can connect with most of the compatible devices including smartphones, tablets and laptops.

Suitable for installation within:

Charging adapter options

SFC-1
Supplied with 20W fast charging adapter
Plug type: Collapsible
Available AC plug adapter options: US and EU

SFC-2
Supplied with 65W GaN fast charging adapter
Plug type: Collapsible
Available AC plug adapter options: US pin

SFC-3
Supplied with 105W GaN fast charging adapter
Plug type: Collapsible
Available AC plug adapter options: US, EU, UK and AU
(the adapter has 3 USB ports: 1*USB-A and 2*USB-C, termed as A, C1 and C2 respectively in the output parameters below.)

Features
20W, 65W, 105W options available

STC-2W/C20, STC-2B/C20

- Single output:
C port(PD3.0): 5V/3A, 9V/2.22A, 12V/1.67A
A port(QC3.0/2.0): 5V/3A, 9V/2A, 12V/1.5A
- Both output: 5V/3.5A Max

STC-2W/C65, STC-2B/C65

- Output C port:
1. QC2.0/3.0/AFC: 5V/3A, 9V/3A, 12V/3A
2. PD/PPS/QC4(when C port single output):
5V/2.4A, 9V/3A, 12V/3A, 15V/4A, 20V/3.25A(65W)

USB TABLE CHARGER

Features

◀ **Small in size, big on power:**

Power up your smart gadgets with this retractable ultra-compact design charging station. Featuring dual USB-A ports and a single USB-C port, this unit supports the mainstream fast charging PD & QC 3.0 protocols with total power output of 42W (max), providing safe and efficient charging for smartphones, tablets, and other devices.

*Refer to the specifications chart

◀ **Power where you need it:**

Charge up to three devices simultaneously from the comfort of your sofa, desk, or bed without having to rely on messy-looking extension cords.

◀ **Intelligent charging:**

USB ports adapt to the charging capabilities of your connected devices and provides the optimal charging current.

◀ **Easy to install:**

Fits easily and can be mounted on Ø50mm-Ø60mm circular grommet hole, making installation quick and simple.

◀ **Clean look:**

With this unit, you can be sure of creating your desired contemporary and sophisticated look in your home or office: choose between glossy and dermatoglyph finish (white or black). In addition, customized color trends are available on request, to meet your design requirements.

Suitable for installation within:

Features

- USB-A1: 5V/3A, 9V/3A, 12V/2.5A, 20V/1.5A (QC3.0, 30W Max)
- USB-A2: 5V/3A, 9V/3A, 12V/2.5A (QC3.0, 30W Max)
- USB-C: 5V/3A, 9V/3A, 12V/2.5A, 15V/2A, 20V/1.5A (PD QC3.0, 30W Max)
- USB-A1+USB-A2: 30W+12W (42W Max) (QC3.0+QC3.0)
- USB-A1+USB-C: 12W+12W (24W Max) (BC1.2)

SCD SERIES UNDER-DESK SPINAL CABLE DUCT

Our SCD series under-desk spinal cable duct is a great way to keep all of your cables grouped together. They are designed to vertically follow the movement of any height-adjustable desks or regular fixed height desks and provide a protective cover to your cables, preventing them from getting damaged.

Along with cable protection, it also makes your workstation aesthetically pleasing.
